COMPANY OVERVIEW

OUR STORY

A3 Performance was founded by Dan Meinholz, an entrepreneur with over five decades in the water and over 30 years of experience shaping the swim industry. What began with goggles and training equipment evolved into a bold mission: to create the most advanced racing suits on the planet. Through relentless innovation and data-driven design, Dan and his team have built A3 Performance into one of the world's premier swim brands trusted by athletes worldwide.

INNOVATION THAT TRANSFORMS

As an industry leader in innovation, A3 Performance has introduced:

- **FITLOCK** – First FINA approved male drawstring fastening system
- **BODIMAX** – Performance and recovery enhancement
- **STEALTH** – First FINA-approved closed-back suit
- **LEGEND** – Zone and Powerback compression
- **PRANA** – HydroBond™ Nanoseal and single-layer construction

PERFORMANCE YOU CAN TRUST

A3 Performance isn't just a brand, it's a movement. Trusted by elite athletes like AJ Pouch, Beata Nelson, and American-record holder, Katharine Berkoff, we deliver elite innovation with every product.

A3 is built on authenticity, performance, and purpose – redefining what's possible in the water. We help swimmers unleash their unstoppable and give teams a true competitive edge!

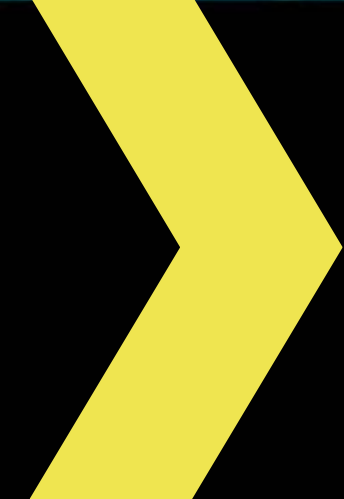

**NEVER
UNDERESTIMATE
THE VALUE OF
HARD WORK**

TECH SUITS

DO TECH SUITS *REALLY* MAKE A DIFFERENCE?

One of the most common questions we hear from athletes, parents, and coaches is:
"Do tech suits really make a difference in performance?"

The short answer is YES!

That's why we've dedicated ourselves to creating the highest-performing, most innovative tech suits in the world.

From hydrodynamics to muscle control to the psychology of racing, the advantages of wearing a technical suit are both scientifically proven and athlete-preferred.

Let's break down the science...

COMPRESSION: POWER & SUPPORT WHERE YOU NEED IT MOST

WHAT THE SCIENCE SAYS:

Research shows that compression reduces muscle vibration during intense activity. Less vibration means less fatigue and better muscle efficiency—both of which can lead to faster times and more consistent effort throughout a race.

Athletes also report that compression simply makes them feel more supported powerful, and "locked in." That sensation strengthens the mind-body connection, helping swimmers feel more in control, more focused, and better prepared.

HOW A3 TECH SUITS HELP:

Our suits feature targeted compression zones that wrap specific major muscle groups. This supports power, reduces fatigue, and preserves range of motion—so you can swim faster, longer.

DO TECH SUITS *REALLY* MAKE A DIFFERENCE?

DRAG REDUCTION: OUTSWIM RESISTANCE

Swimming is a constant battle against drag—and the human body isn't exactly built like a torpedo. Tech suits are engineered to minimize surface drag and form drag, two of the biggest forces slowing swimmers down.

SURFACE DRAG:

Your skin creates friction in the water. A3 Performance tech suits use our proprietary HydroBond fabric coating—a hydrophobic sealant that repels water and dramatically reduces surface resistance. The result? The surface of your suit is faster than your skin.

FORM DRAG:

Think about sticking your arm out the window of a moving car. The rippling air you feel is a visual of what happens in water with form drag. Our suits counter this by compressing the body into a hydrodynamic shape, reducing resistance without limiting movement.

THE TAKEAWAY:

Uniform compression + Race-specific design = **Less drag, more speed.**

DO TECH SUITS *REALLY* MAKE A DIFFERENCE?

MIND-BODY CONNECTION: THE PSYCHOLOGICAL EDGE

There's a reason so many swimmers consider putting on a tech suit part of their pre-race ritual—it sends a clear signal to the brain: **It's go time.**

Tech suits don't just change how you look — they change how you feel.

- The fit is noticeably different from a training suit.
- The process of putting it on demands **focus**.
- The sensation **heightens body awareness**.

All of this builds a heightened mental state of readiness, helping athletes flip the switch from practice mode to **performance mode**.

FINAL WORD

Yes, tech suits make a difference. And when every hundredth of a second matters, the right suit can be the edge that sets you apart.

Choose gear that matches your ambition.

Choose innovation.

Choose A3 Performance.

PRANA

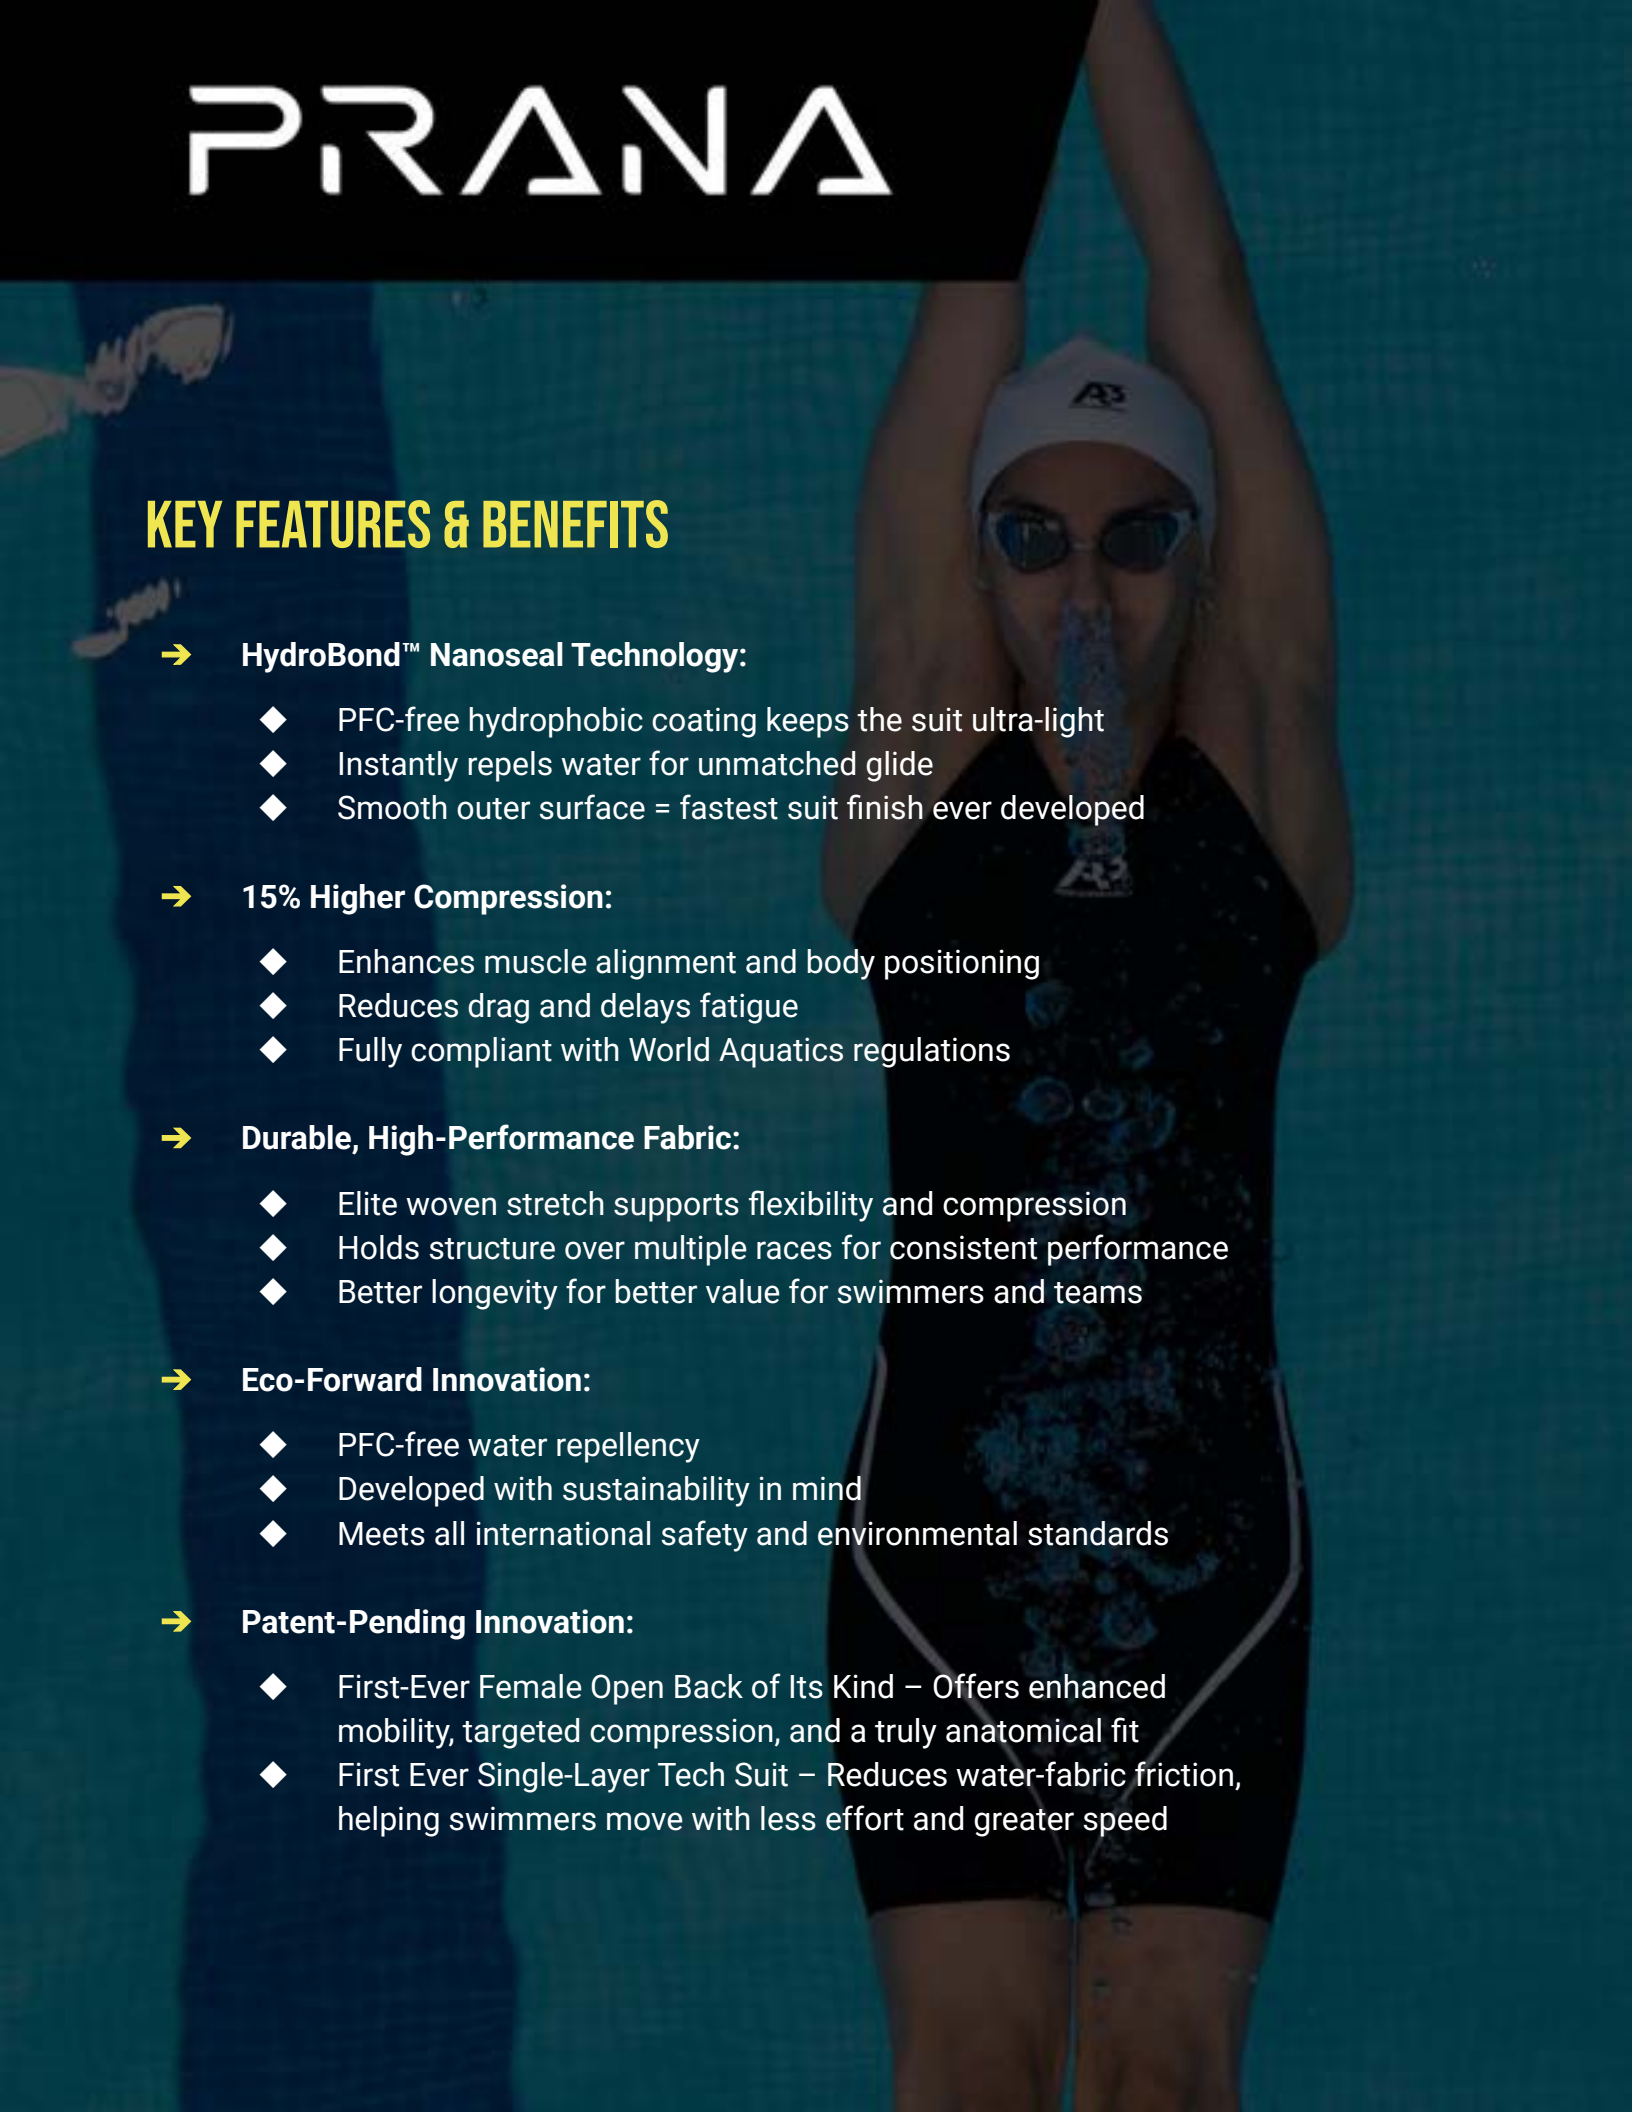

Speed is more than just science. It's energy. It's presence. **It's power from within.**

For our latest tech suit, we challenged ourselves to go beyond speed, compression, and fabrics. We looked to "prana," the life force that fuels body and mind.

The PRANA racing suit is engineered for elite hydrodynamic performance, but it's also designed to unlock total mental and physical synergy. **Because when your energy flows and prana is aligned, you're unstoppable.**

PRANA

A swimmer in a black Prana swimsuit and white swim cap with arms raised in a pool.

KEY FEATURES & BENEFITS

→ HydroBond™ Nanoseal Technology:

- ◆ PFC-free hydrophobic coating keeps the suit ultra-light
- ◆ Instantly repels water for unmatched glide
- ◆ Smooth outer surface = fastest suit finish ever developed

→ 15% Higher Compression:

- ◆ Enhances muscle alignment and body positioning
- ◆ Reduces drag and delays fatigue
- ◆ Fully compliant with World Aquatics regulations

→ Durable, High-Performance Fabric:

- ◆ Elite woven stretch supports flexibility and compression
- ◆ Holds structure over multiple races for consistent performance
- ◆ Better longevity for better value for swimmers and teams

→ Eco-Forward Innovation:

- ◆ PFC-free water repellency
- ◆ Developed with sustainability in mind
- ◆ Meets all international safety and environmental standards

→ Patent-Pending Innovation:

- ◆ First-Ever Female Open Back of Its Kind – Offers enhanced mobility, targeted compression, and a truly anatomical fit
- ◆ First Ever Single-Layer Tech Suit – Reduces water-fabric friction, helping swimmers move with less effort and greater speed

PHENOM

Innovation isn't about following the crowd, it's about seeing and thinking in ways that others haven't, and bringing a bold new idea to life. That's exactly what we've done with PHENOM.

Born from decades of industry expertise, cutting-edge research, and relentless pursuit of excellence, **PHENOM has redefined the standard for elite racing suits.**

A3 Performers who choose PHENOM are athletes who demand the exceptional. They don't just race – they race to win. Designed for swimmers at their peak performance, PHENOM delivers never-before-used racing technology built to match the ambition of the athlete wearing it.

PHENOM

KEY FEATURES & BENEFITS

- **Data-Driven Design:** Every stitch, seam, and surface has been tested, refined, and reimagined. PHENOM is engineered to create the fastest possible surface in the water among all FINA-approved suits.
- **SlipStream® Water Management Technology:** The industry's first-ever *hydrophilic* treatment used in racing suits. Unlike outdated hydrophobic coatings, SlipStream® reduces friction by working with the water forming a sleek boundary layer that glides effortlessly.
- **Bonded Seam Compression:** Advanced seam construction offers strategic muscle compression without sacrificing mobility allowing for maximum power and range of motion.
- **Fabric Channels for Forward Propulsion:** Precision-channeled fabric lifts the swimmer's body in the water while optimizing energy transfer. Vertical channels redirect motion into pure forward thrust stroke after stroke.

Distributors now have the chance to offer a racing suit that doesn't just *compete*—it *leads*. With PHENOM, you're not just selling a suit; you're delivering innovation, performance, and possibility.

Let's bring this game-changer to the athletes who deserve it most.

VICI

A3 Performance proudly introduces one of the most technologically advanced, World Aquatics-approved racing suit to ever hit the water. Built for elite athletes and engineered to dominate the competition, VICI is the next evolution of race-day performance.

VICI – **The Suit Designed to Conquer**

VICI

KEY FEATURES & BENEFITS

- **First-Ever Suit with BODIMAX™ Technology**
Featuring our proprietary, performance-enhancing textile that supports **muscle recovery**, reduces fatigue, and elevates overall performance. No other racing suit offers this.
- **Fastwater™ Surface Treatment**
Our *patented polymer* finish creates a hyper-smooth, drag-reducing surface that actually **induces water flow**, keeping athletes streamlined and unstoppable.
- **Core Compression System**
Targeted compression on the **chest, core, and hips/legs**—the three primary areas of resistance helps swimmers maintain optimal body position and power through every stroke.
- **Redesigned Powerback (from LEGEND)**
Improved from our beloved LEGEND suit, the **Powerback design** now delivers even more core and lat compression while maximizing **range of motion**.
- **Pro Flex Straps**
Designed for elite comfort and mobility, these straps provide **greater flexion** through the shoulders so athletes can power through without restriction.

RISE ABOVE.

A3 Performance introduces **NOVA**, a USA Swimming Approved Racing Suit specifically engineered for **12 & Under athletes** and it's making waves. Designed with purpose, priced for accessibility, and built to outperform expectations, **NOVA is the entry-level tech suit every dealer needs to stock.**

KEY FEATURES & BENEFITS

We believe greatness starts early and with **NOVA**, young swimmers don't just step up to the blocks, they **rise above**.

→ **Built for 12 & Unders**

Officially **USA Swimming Approved**, NOVA meets all the requirements for age-group athletes without sacrificing elite-level performance.

→ **Compression Where It Counts**

Targeted compression supports key muscle groups **chest, core, glutes, and legs** helping swimmers maintain ideal body positioning and maximize every stroke.

→ **SuperNova Fabric Technology**

Durable and flexible, this specially knitted fabric delivers long-lasting, race-after-race compression that rivals some of the sport's top-tier suits without the high price tag.

→ **Hydrophobic Power**

Our **proprietary water-repellent treatment** reduces drag and enhances glide, helping swimmers get the most out of their performance from the very first race.

→ **Affordable. Durable. Elite-Level Results.**

NOVA was built on the principle that **less is more**: high-quality materials, smart compression, and performance-driven features **at a price point families can feel good about**.

TRAINING SUITS

FEMALE TRAINING SUITS

Performance Meets Versatility

Whether it's high-intensity training, in-season racing, lifeguarding, or daily laps, A3 Performance's **Xback**, **Flashback**, and **Sprintback** suits deliver unbeatable durability, comfort, and performance for swimmers of all levels. Designed for versatility, built for action.

Ideal for: Training • Racing • Lifeguarding •
Outdoor Swimming • Fitness

FEMALE TRAINING SUITS

KEY FEATURES & BENEFITS

- **Built for Action:** Crafted from **high-quality PBT polyester**, these suits offer superior **chlorine resistance**, **excellent color retention**, and a **comfortable, secure fit** that lasts wear after wear.
- **Reinforced Construction:** Engineered with **reinforced shoulder and stress point seams** to withstand even the most demanding workouts and long seasons.
- **Flattering, Functional Cuts**
 - ◆ **Xback:** Modern style with an athletic edge, offering an open, flexible feel
 - ◆ **Flashback:** A favorite for outdoor swimmers, with a traditional open-back design
 - ◆ **Sprintback:** Sleek and supportive, ideal for younger athletes or those who prefer a more conservative cut

What the Pros Say

"I was very impressed with the product's quality and comfort! The Flashback training suit was very comfortable, and it fits great on the body. I wear mine on a daily basis!" — *Renata Sander, Brazilian National Team Member*

FEMALE TRAINING SUITS

XBACK

SIZING: 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42

MALE TRAINING SUITS

KEY FEATURES & BENEFITS

- **Flexible Durability:** Made from **premium PBT polyester**, our suits offer **maximum chlorine resistance**, **long-lasting color**, and a **secure, athletic fit** that supports movement without restriction.
- **Reinforced for Action:** Both styles feature **reinforced stitching at stress points**, ensuring a consistent fit and extended wear—even through daily use.
- **Fit for Every Preference**
 - ◆ **Brief:** Classic minimal coverage for total freedom and a lightweight feel
 - ◆ **Jammer:** More coverage with compression-style support for quads and glutes

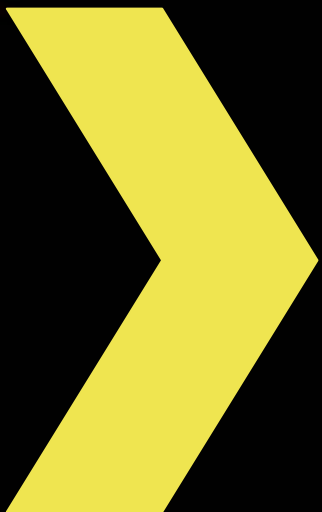

Athlete-Tested, Everyday-Ready

Trusted by athletes who demand both performance and durability, these suits hold their shape and color better than traditional lycra blends—making them a **go-to choice** for serious swimmers.

Tough Enough for Training. Fast Enough for Racing. Made to Move.

TRAINING EQUIPMENT

TRAINING EQUIPMENT

All A3 Performance training equipment is designed to train your tempo, helping swimmers develop consistent stroke rhythm and build efficiency with every lap!

TRAINING EQUIPMENT

Fins are beneficial because they build leg strength, improve kick technique, and increase overall speed in the water.

- Short fins like the Swift Kick Fin help refine stroke mechanics and boost endurance with a realistic tempo.
- Long fins like the Pro-Fin support beginners by promoting body position and making it easier to swim, learn proper technique and dolphin kick.

Both offer valuable benefits depending on your swim goals!

PRO FINS

MSRP: \$32.00 USD

COLORS: 8-11Y Blue/Yellow, 11-1Y Purple/Yellow, 1-3 Yellow/Blue, 3-5 Orange/Blue, 5-7 Red/Blue, 7-9 Green/Blue, 9-11 Blue/Purple, 11-13 Black/Blue, 14-15 Blue/Black

ITEM NUMBER: A3TS

POWERCHUTE

MSRP: \$75.00 USD

COLORS: Black

ITEM NUMBER: A3PC

TRAINING EQUIPMENT

Fusion and Power Paddles are essential for building upper body strength, improving hand and arm entry, especially in freestyle and developing proper stroke tempo.

One of the most important benefits of using paddles is increased stroke awareness, helping swimmers feel the water better and make technical adjustments with each stroke.

They come in multiple sizes, making them ideal for swimmers of all ages and skill levels, and are easy to carry to and from practice.

POWER PADDLES

MSRP: \$20.00 USD

COLORS: Red-Small, White- Medium, Large- Blue

ITEM NUMBER: A3PRP

FUSION PADDLES

MSRP: \$20.00 USD

ITEM NUMBER: A3BMSH

TRAINING EQUIPMENT

BODIMAX technology absorbs body heat and returns it back to the body in the form of far infrared rays (energy). The rays' penetration to the skin stimulates blood microcirculation, cellular metabolism, and thermoregulation.

These processes delay fatigue and enhance performance by increasing the flow of oxygen, reducing vasoconstriction, and removing metabolic waste.

ARM COMPRESSION SLEEVES

MSRP: \$64.00 USD

SIZES: SM, MD, LG, XLG, XXL

COLORS: Black 100, Stars/Stripes 404, Cold Metal 111

ITEM NUMBER: A3BMXAS

CALF COMPRESSION SLEEVES

MSRP: \$58.00 USD

SIZES: SM, MD, LG, XLG, XXL

COLORS: Black 100, Stars/Stripes 404, Cold Metal 111

ITEM NUMBER: A3BMXCS

BODIMAX

Aerobic Threshold : When the body has enough oxygen to produce fuel for muscle performance and eliminate lactic acid at the same rate it's produced.

When the body is pushed beyond its aerobic threshold...

Wearing BODIMAX Sleeves consistently, overtime creates a physical adaptation so athletes continue to recover better even after taking them off.

Oxygen levels deplete

Muscles burn fats & carbohydrates

Lactic acid is produced & starts to build up

Fatigue sets in & muscles weaken

Boost circulation & metabolism so oxygen levels remain high and oxygen flows easily through the blood stream.

Delay the onset of lactic acid & reduce its total buildup.

Postpone muscular fatigue, discomfort, & tension.

Recover quickly by clearing lactic acid sooner. You'll feel fresh and energized for your next practice.

Push your threshold so you can train at a higher level for a longer period of time.

TRAIN BETTER LONGER. GET BETTER FASTER.

BODIMAX

How To DETERMINE BODIMAX SLEEVE SIZE

BODIMAX Sleeve size is determined based on the circumference of your forearm. See image and sizing chart for proper measurement and sizing.

Sizing Chart

	S	M	L	XL	XXL
in.	<9.5	9.5-11	11-12.5	12.5-14	14+
cm.	<24	24-28	28-31	31-35	35+

*For those athletes who fall in between sizes, A3 Performance recommends sizing up to the larger size for the most comfortable fit.

✓ FIT GUARANTEE

In order to perform at your best, you need to feel your best! We want you to feel great in your BODIMAX Sleeves and we know that online shopping can be difficult. So, if our sleeves don't fit for any reason, let us know and we will send you a different size.
